

PROJECT

GEOMETRIC BEAR

Price: £25

Approximate time to complete: 2 hours

You will need:

- Geometric bear ceramic
- Beige paint (20 - Birthday Suit)
- Pale brown paint (25 - Crackerjack)
- Natural sponge
- Large brush
- Black writer bottle (15 - Tuxedo)

GEOMETRIC BEAR - Painting Steps

Step 1 : Paint three coats of beige paint all over (20 - Birthday Suit) with a large brush. Allow to dry between each coat.

Step 2 : Sponge one layer of pale brown paint (25 - Crackerjack) all over with a natural/textured sponge.

Step 3 : Outline the facets with the black writer bottle (15 - Tuxedo). If the writer bottle gets clogged up, clear it with a pin.

Step 4 : Finally, use the black writer bottle to fill in the black colour for the nose, and to add the eyes, and you're all done!
